LEONARD WOOD.
Major General, United States Army.

Leonard Wood's Life

Here is Leonard Wood's life outlined in brief:
Born, October 6, 1859; Winchester, N. H.
Lived in boyhood on Cape Cod, Mass.
Graduated from Harvard Medical school, 1884.
Worked among poor of Boston as hospital doctor.
Appointed army surgeon in 1885, served a few days in Boston and then was transferred to Mexican border on his request "for action."
Fought for many months the savage Apaches who harried the border and successfully blocked the approach of civilization. Years later awarded Congressional Medal of Honor for his heroism in the Indian warfare.
In 1888 he surveyed Arizona under General Miles.
Ordered back to active service on border for a few months.
Made staff surgeon, in 1889, and stationed at Los Angeles.
Married Miss Louise A. Condit Smith, niece of Chief Justice Field.
Sent to Washington in 1895 as assistant attending surgeon, and served under Cleveland and McKinley.
Organized Rough Riders in 1898; made colonel, with Theodore Roosevelt as lieutenant colonel.
Lead his troops in first battle at Las Guasimas, June 24, 1898.
Entered Santiago July 17, and was promoted for valor to brigadier general.
Made military governor of Santiago July 20, and turned city from pest-house to modern municipality.
President McKinley appointed him governor general of Cuba, in December, 1899. In next three years he brought Cuba out of darkness and established it as a modern, law-abiding, self-governing nation.
Sent by Roosevelt to Germany in 1902 as military observer.
Appointed governor of the savage Moro province in the Philippines, in 1903, by President Roosevelt.
Went with his men to the front lines, fought fanatic rebellion, established government and civilization, and in three years redeemed another "lost land."
Made commander in chief of American forces in Philippines in 1905.
In 1908 transferred to United States and made commander of the department of the east.
Sent as special ambassador to Argentine republic.
Four years headed American military forces as chief of staff.
In 1914 again made commander of the department of the east.
Became premier leader in preparedness in United States by establishing training camps in 1914, 1915 and 1916. Thousands of men trained under his direction to become officers on call.
Transferred in 1917 to department of south, request for overseas duty having been ignored.
August 26 began training of crack Eighty-ninth division at Camp Funston, Kansas.
Sent to Europe in December as military observer.
Wounded by bursting gun; three weeks in hospital.
Returned and resumed command of Eighty-ninth division April 12, 1918.
Eighty-ninth went overseas; Wood ordered to stay at Funston and start training Tenth division.
Foreign officers pronounced Tenth best division ever when it was ready to go overseas just before armistice, November, 1918.
Made commander of central department and organized forces to care for returning soldiers throughout central states.

DR. GUY B. MITCHELL Enters Campaign for State Senate Taney County Physician Served as Captain During Recent War—Made Good Record in General Assembly

Dr. Guy B. Mitchell, Branson physician and prominent in Republican politics of Taney county, has entered the campaign for state senator of the Nineteenth district.
Dr. Mitchell, who served as a captain in the medical corps during the recent world war, has been actively identified with Republican politics for many years. He served with credit in the Forty eighth and Forty ninth general assemblies at Jefferson City as representative from Taney county. Dr. Mitchell introduced the bill calling for a reform in the eleemosynary institutions and succeeded in having the central board of control appointed for these institutions. The metropolitan press claimed this to be the most advanced legislation introduced in the assembly in recent years. The measure passed the house with only three dissenting votes.

Dr. Mitchell served as chairman of the war savings committee in Taney county, and under his leadership the county was the first in the Ozark region to go over the top. He has served as first vice president of the Missouri State Medical association, is president of the Branson Business club and is a good-roads booster for the Ozark region.

He answered the call in the summer of 1918 when the war department was in need of medical officers. He came to Springfield, took the examination before the district examining board and was commissioned a captain in the medical corps, regular army, and reported to the officers training camp at Fort Riley. He was assigned to the Nineteenth division at Camp Dodge and was ready to sail for overseas when the armistice was signed.

Friends of Dr. Mitchell, who are supporting his candidacy, say he will not make the race on his war record, but will point to legislation put through by him in the general assembly.

This is the first time Taney county has placed before the Nineteenth senatorial district a candidate for the senate, while both of the other candidates opposing Dr. Mitchell in the race for nomination come from counties having enjoyed this honor before.

Taney county has men as well qualified for this position as any county in the district and hopes to obtain this honor. From the present outlook Dr. Guy B. Mitchell is the man who will bring this honor to her.

"Bachelor of Commerce."

The plan of the University of London to grant degrees in commerce is attracting much attention. Under this scheme it is proposed to grant the degree of bachelor of commerce to candidates who pass the necessary examinations after a three years' course of study. Those who so desire may later proceed to the degree of master of commerce, after a minimum of two years' practical experience in the particular trade or industry taken up.

The first year's course comprises the compulsory subjects of organization of industry, banking, trade and transport; modern economic development of the British empire and of the chief foreign countries; elementary commercial law, and statistical method. The second and final year will be devoted to specialization.

Placing Himself.

Luther Burbank, like Thomas A. Edison, has had his brain incorporated and capitalized. He has done many wonderful things, one of the biggest being the perfecting of the spineless cactus, which is a great cattle food staple. Also to his credit are the Shasta daisy, the stoneless prune and the seedless grape. His patience is wonderful and they say that at one time he raised 50,000,000 lilies to get a single half-dozen that were perfect. "No wonder they call you the 'wizard' of California," remarked a Los Angeles reporter once. Burbank laughed, and replied: "They might better call me the gizzard of California."

MARNE MEMORIAL POSTER

JUST as the school children of France gave for their country's gift to the United States—the Statue of Liberty—so will American school children contribute "one cent and upward" for "America's Gift to France," a monumental statue by Frederick MacMonnies, the noted American sculptor. Mr. MacMonnies is contributing his services toward the monument which, it is estimated, will cost \$250,000.

The poster shown herewith, is by Albert Sterner, noted American portrait painter. It typifies the tribute which this country will pay to the French through the Marne monument. The poster will be displayed in cities, towns, and villages, and will designate many of the places where contributions may be made during the week of March 22—a free-will offering, in which numbers of contributors, rather than size of contributions, will be sought from school children and others. Contributions are now being received at National Headquarters, 450 Nassau street, New York, by Charles H. Sablin, president of one of New York's largest trust companies, who is treasurer of the fund. The memorial will be erected at

Pretty New York School Girl Helps Spread Appeal for Pennies for "America's Gift to France."

Means, on the Marne, and will rival in size and grandeur of design the Statue of Liberty.

WOOD STRENGTH GAINING RAPIDLY

Choice of People Everywhere as
G. O. P. Nominee,
Polls Show.

Chicago, Ill.—Wood sentiment is sweeping America, according to reports from every state in the Union received at the headquarters of the Leonard Wood national campaign committee here.

Considered of particular importance is the fact that straw ballots and newspaper polls taken in every state indicate almost unanimously that if the Republican voters of the country have their choice, Leonard Wood will be the party's candidate. In almost every one of these polls he is leading by 2 to 1, and in most cases has as many votes as all other candidates put together.

This fact is particularly important considering the fact that more than half the delegates to the national convention in Chicago June 8 will be sent by direct vote of the people, expressed in primary elections. A total of 488 delegates out of 884 to be seated, will be elected by primaries. Some of these delegates will be uninstructed, but in almost every state, if the voice of the people is to be heeded, the delegates will have leanings toward Wood's candidacy.

Many Primaries Soon.

For the benefit of political students and voters in general, herewith is printed the list of primary states and the dates of their elections, together with the number of delegates: California, 26 delegates, May 4; Illinois, 58, April 13; Massachusetts, 25, April 27; Montana, 8, April 27; Nebraska, 16, April 29; New Hampshire, 8, March 9; New Jersey, 28, April 1; New York, 88, April 6; North Dakota, 10, March 16; Ohio, 48, April 27; Oregon, 18, May 21; Pennsylvania, 36, May 18; South Dakota, 10, March 23; Texas, 23, April 25; West Virginia, 16, May 25; and Wisconsin, 26, April 6.

New Hampshire comes first and its eight delegates, to be elected March 9 are absolutely certain to be for Wood. New Hampshire always has had a warm spot in her heart for Wood, for it is the state where he was born, although he lived there but a short time. Then comes North Dakota, March 10, and South Dakota March 23, with ten votes each. These states are regarded as highly important, from a campaign standpoint.

It is expected that the only real opposition that Wood will have in South Dakota is from the forces backing Gov. Frank Lowden of Illinois, manufacturer and capitalist, who married the daughter of the Pullman Croesus. Thousands of dollars are being poured into the Dakota battle against Wood, but every day Wood's committee is discovering new strength for him there.

Leads in Minnesota.

A peculiarly good indication of Wood strength comes from Minnesota. The St. Paul Pioneer Press, one of the leading newspapers of the country, took a careful, systematic poll by letter of editors, legislators and leading politicians who are supposed to be in close touch with the pulse of the people at all times. It proved that of 373 leaders questioned, 291 were for Leonard Wood. Lowden was next with only 50; Johnson third with 46. Taft got 25, Hughes 20, Hoover 12, Frazier of North Dakota 3 and Harding, Polk, Dexter, Goethals, Kellogg, Root, Capper and Governor Smith of New York 1 each. It

is interesting that Hoover led the Democratic side with 55. Wilson had 31, Bryan 10 and Palmer 10. If popular sentiment has any say Wood will be the next president of the United States.

Luke Rielley Says "The Rat Died Before Reaching the River."

"Since moving near the river 2 years ago, we've always used RAT-SNAP. Watched a vicious water rat nibbling at RAT-SNAP outside the house. About 15 minutes later he darted off for the water, to cool his burning stomach, but he died before reaching it." Three sizes, 25c, 50c, \$1.00. Sold and guaranteed by J. E. Felkins & Co.

How Welsh Coal Trade Began.

Less than a century ago Welsh coal was scarcely known outside of Wales. The natives had burned it for 500 years, but only in a small way, for they preferred the more readily procurable peat. In 1829 the London smoke act was passed, and a demand for a smokeless coal arose. Two dealers, one of whom became afterward Sir James Duke, hearing that such a coal was to be found in Wales, set out to investigate. In due course they came to Merthyr, where they found Mrs. Lucy Thomas in a hut near the mouth of a pit of which she was the owner. When they told her that they wanted to buy a shipment of her coal she was utterly incredulous. She demanded 4s a ton and money down, and was absolutely dumfounded when both conditions were promptly agreed to. The coal was conveyed by mules to Cardiff, thence by sea to London, where it was sold to eager purchasers at 18s a ton. Thus began the Welsh coal trade.

Iodine for Scratches.

Scratches on dark oak furniture may be greatly improved in appearance by carefully painting the scars with iodine, using as many coats as necessary to produce the desired depth of color. When this is dry go over the whole piece of furniture with a good furniture polish.

Wanted Only "Overgrown."

Florence, having invited Earl to her birthday, was anxiously waiting for an invitation to Earl's party. One day she asked him if she was going to be invited to his party, to which he replied: "Oh, I'm not going to have any kids at my party, only overgrown people."

Pleased at Her Appearance.

Jane was busy entertaining herself by looking at the photograph album. Soon she came across a picture of herself taken when she was a tiny, bald-headed baby, and in all earnestness she said: "What a tummy! homely baby!"

Obtrusively Friendly.

Personally we try not to be too fastidious in choosing our associates, all the same we never chum with the good-fellow kind of a man who would ask Saint Peter for a match.—Dallas News.

The Cautious Elephant.

Ancient chronicles tell us that the Romans sometimes tested their military bridges by sending an elephant on them and then watching to see whether the cautious beast would cross. Even to this day the natives in India set great store by the elephant's caution.
